Our incredible researchers Reggie Jackson & Bo McMillan have been published (again!) in PRRAC - The Poverty & Race Research Action Council.

The article pulls data from Milwaukee, WI to illustrate how segregation has always been part of the city. Our researchers utilize statistics from segregated neighborhoods, housing policies, and school systems to showcase the deep segregative divide. Furthermore - one of our Milwaukee Field Organizers, Dynasty, is featured in the article as well!

[Be sure to give it a read here.](#)

## Milwaukee County Petition for Housing Subcommittee

Last but certainly not least - our Milwaukee Field Team has launched a petition to the Board of County Supervisors to develop a Housing Subcommittee. This Subcommittee would serve to address the myriad housing inequities present in Milwaukee, and would

be crucial in redressing one of America's  
most segregated cities.

That about does it for now. We also wanted to take this opportunity to kick off the New Year with some serious gratitude - to our readers, our donors, our volunteers, members, and neighbors. We couldn't do any of this important and crucial work without all of you.

Here's to a bigger, better year. 🥳👥
